

About BioSyent

Listed on the Toronto Venture Exchange under the trading symbol "RX", BioSyent is a profitable growth oriented specialty pharmaceutical company which searches the globe to in-license or acquire innovative pharmaceutical products that have been successfully developed, are safe and effective, and have a proven track record of improving the lives of patients and supporting the healthcare professionals that treat them. These products occupy a niche in the market, provide novel technological or therapeutic advantages, are unique due to the complexity of the manufacturing process, and are backed by strong partners who hold intellectual property rights that are defensible. BioSyent is focused on Canada and certain other international regions.

Once a product of interest has been found, BioSyent acquires the exclusive rights to the product and manages it through the governmental regulatory approval process. Once approved, BioSyent commercializes the product throughout the territories.

BioSyent's business model is structured to minimize risk and to produce consistent growth, profitably. For the three years ending December 31, 2016 the Company experienced a compound annual revenue growth rate (CAGR) of 32% while delivering a NIAT CAGR of 31% during the same period.
